<b>CHAPTER 1</b>	<b>Introduction</b> .....	1
	<b>RTXC Kernel Features</b> .....	3
<b>CHAPTER 2</b>	<b>Levels and Threads—Meeting Functional Requirements</b> .....	7
	Level Definition .....	9
	Level Organization .....	10
	Ready Table .....	10
	Level Properties .....	11
	Level Attributes .....	11
	Number of Static Threads .....	11
	Number of Dynamic Threads .....	11
	Level Priority.....	12
	Introducing Threads.....	12
	Thread Definition.....	13
	Thread Organization.....	13
	Thread States.....	14
	Readying Threads for Execution .....	15
	Thread Properties.....	16
	Optional Properties .....	18
	Thread Scheduling Protocols .....	21
	Thread Contexts .....	25
	Using Threads.....	26
<b>CHAPTER 3</b>	<b>Exceptions—Claiming Interrupt Vectors</b> .....	31
	Exception Definition.....	33
	Exception Properties.....	33
	Exception Attributes.....	34
	Priority Level.....	34
	Interrupt Vector .....	34
	ISR Prologue Address.....	35

	Exception Vectors .....	35
<b>CHAPTER 4</b>	<b>Pipes—Buffered Data Movement.....</b>	<b>37</b>
	Introducing Pipes.....	38
	Pipe Definition.....	39
	Pipe Organization .....	39
	Pipe Properties .....	40
	Pipe Attributes .....	40
	Number of Buffers .....	41
	Maximum Buffer Size.....	41
	Address of Pipe.....	41
	Pointer to Full Buffer List.....	41
	Pointer to Free Buffer List .....	41
	Pointer to Buffer Size List.....	43
	Pipe States .....	43
	Optional Properties.....	43
	Using Pipes .....	43
	Producer Operations .....	44
	Consumer Operations.....	49
	Jamming Data into a Pipe.....	51
	Pipe Actions and Conditions .....	52
<b>CHAPTER 5</b>	<b>Event Sources, Counters, and Alarms—Keeping Track of Events ...</b>	<b>61</b>
	The Event Management Hierarchy.....	62
	Introducing Event Sources .....	63
	Event Counting.....	64
	Event Source Definition.....	64
	Event Source Properties.....	65
	Using Event Sources .....	66
	Introducing Counters .....	66
	Counter Definition .....	67
	Counter Properties .....	67
	Tick Conversion.....	68
	Application Time.....	70
	System Time .....	70
	Using Counters .....	72
	Reading Counter Ticks.....	72
	Elapsed Ticks .....	72
	Introducing Alarms .....	73
	Alarm Management .....	74

Alarm Definition .....	76
Alarm Properties .....	77
Optional Properties .....	80
Using Alarms .....	81
<b>INDEX</b> .....	<b>89</b>
